### MEDIA RELEASE

For Immediate Release

#### Bonner County Coronavirus Response

With the implementation of Governor Little's stay-at-home order yesterday came a whirlwind of mixed reactions by all of us. While not all businesses are deemed "essential" We would like to commend the businesses in Bonner County and the region that have evaluated their operations and either closed or modified services due to COVID-19. We realize that these decisions could have multiple long-term effects. The Bonner County Economic Development Corporation has been working tirelessly to put together a list of resources for businesses, you can visit their website at: <https://bonnercountyedc.com/>

It is important, based on what we do know about this virus, to take the proper steps to protect yourself. Please adhere to the guidelines in Governor little's Stay-at-Home Order which can be found at: <https://coronavirus.idaho.gov/> Panhandle Health District and the Centers for Disease Control websites also offer detailed information.

Bonner County EMS, Bonner County Emergency Management, Panhandle Health District, Bonner General Hospital, and Bonner County Commissioners, amongst others, connect daily to discuss and problem solve ongoing and potential issues. Emergency Management daily updates can easily be found at: <https://www.facebook.com/Bonner-County-Emergency-Management-395580217207035/>

All agencies are treating the safety of the residents of Bonner County of the utmost importance.

Jessi Webster  
Public Information Officer, Bonner County
